DEPARTMENT OF UTILITIES

IMPORTANT NOTICE

Improvements to the public water system are needed in your area. To complete the improvements, it will be necessary to interrupt your water service on September 23rd 2025, from 6:00pm to 6:00am September 24th.

If weather conditions do not permit the improvements to be made on the date listed above, the work will be rescheduled to September 24th 2025, from 6:00pm to 6:00am September 25th.

After water service is restored, some discoloration of the water may be noticed. This discoloration is not harmful and should clear up quickly if you leave your water running for a short while.

If you should notice continued high/low water pressure or severe discoloration, please call the Department of Utilities at 540-658-8695. After normal business hours, please call the Stafford Emergency Communications Center at 540-658-4857.

We appreciate your understanding and cooperation for any inconvenience during this temporary interruption of service.

If you need to contact our office about this matter, please call 540-658-8653.

If an emergency arises after normal business hours of 8:00am to 4:30pm, please call Stafford Emergency Communications Center at 540-658-4857.

Sincerely,

Claudia Wright
Department of Utilities
Civil Engineer

Cc: 46 Moorwood DR.

Casey Ervin, Utility Inspector.
