Hello Mr. Undercoffer, I apologize for the confusion. I mistakenly sent you a message while updating our system to reflect which departments have responsive records. We are still processing your request, and I will notify you as soon as I receive an update. Thank you for your understanding.

Hello, I sincerely apologize for the confusion regarding the cost estimate previously sent for request #5250. Because you submitted multiple requests, the department mistakenly associated the estimate with the wrong request. Please disregard the previous cost estimate. There is no charge associated with request #5250. I am very sorry for the mix-up and truly appreciate your patience and understanding. Thank you.

As for 'Any existing list, log, register, or index identifying NDAs or confidentiality agreements signed by, requested of, or presented to current or former members of the Board of Supervisors or Planning Commission concerning data center projects or companies,' the requested records could not be found or do not exist. Alternatively, we are producing the two nondisclosure agreements that Stafford County has with any Data Center.
